NOTABLE ACHIEVEMENTS

- Led a USD 50M global ERP, PIM, and SCP program impacting 40+ systems, coordinating 7 vendors and 250 contributors, redesigning 200+ end-to-end processes and unifying the operating model of 20 legal entities.
- Delivered an APAC ERP rollout in 8 months on time and on budget (USD 3M), achieving full adoption by 100+ users and standardizing regional operations and data flows.
- Raised purchasing fulfilment from 54% to 85% and reduced overstock by USD 12M annually (7%) by redesigning the purchasing and planning operating model.
- Cut warehouse cycle time by 22% and increased throughput reliability through WMS deployment in 3 sites.
- Built three new departments, directed multicultural teams of 60 from junior staff to senior directors, streamlining roles and responsibilities and enabling 15+ internal promotions.

BUSINESS DOMAIN EXPERTISE

- **Program governance and delivery:** full ownership of multi-vendor transformation programs: budget accountability, vendor negotiation, SteerCo governance and C-suite reporting.
- **Process design and automation:** redesigning end-to-end processes across finance, purchasing, planning, logistics and retail; enforcing global template discipline with controlled local adaptations.
- **Supply chain and data governance:** managed teams in functions of demand and supply planning (OTB, S&OP), warehouse operations, international transport and data management.
- **Change management and adoption:** align corporate change strategy and operating model redesign to daily operations through structured communication programs, champion networks and role-based training.

CAREER HIGHLIGHTS

DFS Group Limited, Hong Kong, VP Global Business Process Office

Feb 2019 – Sep 2025

LVMH retail Maison, multi-category airport & downtown stores, ~USD 1.3B revenue, ~3,000 staff.

- Held dual mandate as programme executive and operational head: led global 8 process workstreams while running master data and regulatory compliance function covering 15 import markets and 300,000+ active SKUs.
- Directed the USD 50M SAP S/4HANA, Relex and Akeneo greenfield implementation program. Program achieved 94% standardisation on 200+ processes and reached cutover-ready stage with 91% defect resolution on 1,300+ test variants and an 800-activity cutover plan fully rehearsed, prior to suspension following DFS divestiture from LVMH. Build and led both a 28-person global program department and the governance bodies.
- Progressed from Senior Manager to Vice President across 5 roles over 6 years.

Heinemann Asia Pacific, Singapore, Head of Planning

Nov 2014 – Jan 2019

Regional office of travel retailer Gebr. Heinemann, Southeast Asia operations, ~USD 250M revenue, ~140 staff.

- Promoted from Manager to Head of; managed a team of 7 supply planners in charge of APAC \$30M inventory covering B2B and B2C operations as well as retail expansions in Sydney and Hong Kong airports.
- Rolled-out SAP F&R with zero customisation, configuring automated replenishment logic for 12,000 SKUs throughout Asia.

Rémy Cointreau International, Singapore, Regional Demand Planner

Oct 2012 – Oct 2014

Regional Asia Pacific hub of family-owned premium spirits group, travel retail and domestic markets.

- Acted as SAP Key User for SAP ECC rollout: redesigned MM and P2P processes, implemented SOPs, migrated 1,700 SKUs and coordinated UAT.
